- Convenient lightweight to use
- Premium hexagonal grip design adapters

- Quick and easy connections to standard garden hoses, sprinklers, nozzles, and or any other garden watering tools
- Leak proof and rust proof in design
- Type: standard 3/4" US Garden Hose Thread (GHT)
- Strong durable ABS

Step 1

Attach the tap connector to your faucet.
Do not over tighten.

Step 2

Attach the quick locking connectors to both ends of your hose, then connect your hose to your faucet.

Step 3

Attach your various watering tools to the adapter such as nozzles, wands, oscillators, sprinklers and more, then connect to the quick connector. The convenient quick lock water stop feature allows for quick tool changes of tools without getting wet even when the water is on.

To disconnect, turn the lock ring to the left, then push the ring down. The hose will automatically disconnect by popping out.

Turn on the water faucet and enjoy watering. Your connections will be secure, without leaks and not getting soaked when you switch watering tools.

⚠ CAUTION ⚠

-For outdoor use with cold water only

-When not in use, rinse the tool with water to remove most of the dirt, dry your tool, and store indoors

This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer.
