

PREMIUM QUICK SNAP AND LOCK EASY CONNECTION KIT

NON SPLASH

A quick connect system makes hose connections a snap. Change tools without getting wet!

INCLUDES : **1×** Faucet connector
2× Premium hexagonal grip design product adapters
2× Premium quick snap connectors
 (one with a built-in water stop, both with snap and lock)

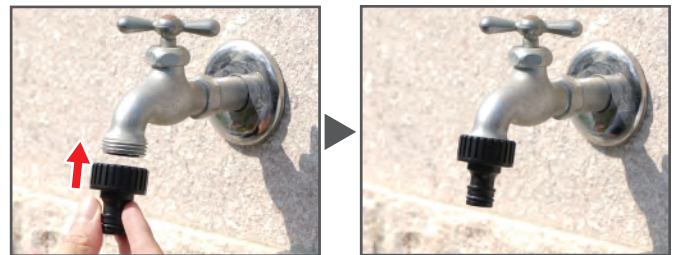

Connects to U.S. standard garden hoses, sprinklers, nozzles and any other garden watering tools in a snap !

- Quick snap on and turn to lock
- Secure lockable in connections
- Ergonomic snap fitting TPR design for a comfortable grip
- Convenient and lightweight to use
- Premium hexagonal grip adapters

- Quick and easy connections to standard garden hoses, sprinklers, nozzles, and or any other garden watering tools
- Leak-proof and rust-proof in design
- Type: standard 3/4" US Garden Hose Thread (GHT)
- Strong durable ABS material

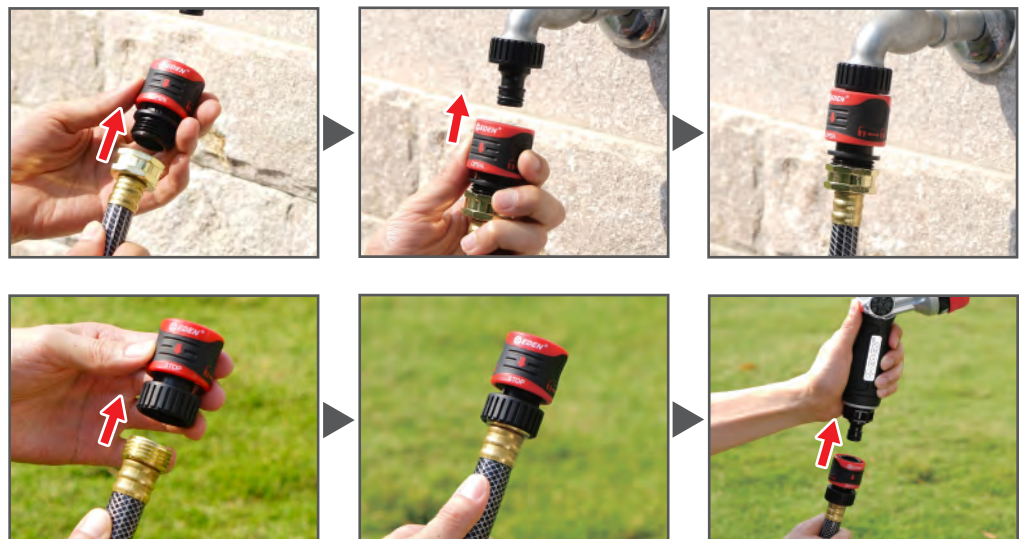

Step 1

Attach the faucet connector to your faucet. Do not over tighten.

Step 2

Attach the quick locking connectors to both ends of your hose, then connect your hose to your faucet.

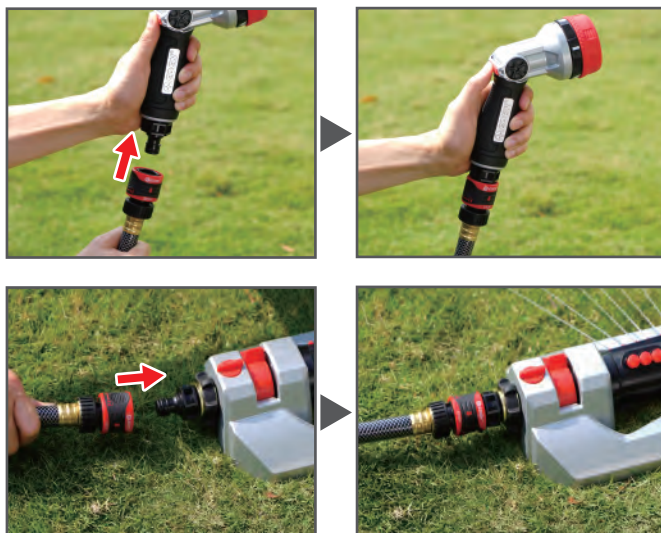

Step 3

Insert the Product Adapters into various watering tools such as nozzles, wands, oscillators, sprinklers, and more, then connect to the quick connector. The convenient quick lock water stop feature allows for quick tool changes without getting wet even when the water is on.

Turn on the water faucet and enjoy watering. Your connections will be secure, without leaks and you won't get soaked when switching watering tools.

To disconnect, turn the lock ring to the left, then push the ring down. The hose will disconnect by popping out.

⚠ CAUTION ⚠

- For outdoor use with cold water only
- When not in use, rinse the tool with water to remove most of the dirt, dry your tool, and store indoors

⚠ WARNING: This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov

EDEN PREMIUM QUICK SNAP & LOCK EASY CONNECTION KIT simplifies your watering experience. Connect the tap connector to the faucet, attach the connector at the end of your hose. Then, connect the adapters to your watering tools. Interchange various tools in a snap without turning off the water as the adapter will stop the water flow. No more kinking or hose twisting as the adapter allows the hose to swivel 360 degrees.
