Easy dial to select unique watering patterns for lawns,  
vegetable gardens, flower beds and more

Filter prevents sediments  
and dirt from getting into  
sprinkler

Honeycomb design  
provides extra grip  
in wet conditions

Aluminum platform design for  
more stability and years of use

**Quick Connect Starter Set  
fits all standard garden hoses  
and watering tools**

Reach irregularly sized and shaped areas with the versatile and durable Eden Metal 9-Pattern Turret Sprinkler.

Choose from 9 different watering patterns to reach any shaped area from the lawn and corner gardens to vegetable gardens, flower beds, or thin strips of grass by the curb. Customize your watering area to water right where you need it. Plus, pick a spray pattern that is fun for spending quality time with your kids and family outside.

With just a twist, select a watering pattern that fits your unique watering area. Choose from rectangle, wide strip, narrow strip, semi-circle, square, soft square, circle, ring, or rotor to cover the right-sized area.

The durable, heavy-duty aluminum base with rotary dial is built to last season after season. The convenient hook makes storage simple. Great for small- or medium-sized areas up to 1,022 sq. ft., this sprinkler will keep your lawn and gardens healthy and growing.

The patented, automated pop-up rotor creates an even watering effect built for any terrain. Once the rotor pattern is selected, it will automatically pop up and provide an even watering pattern. When not selected, it will lower itself into a protective casing for safe storage.

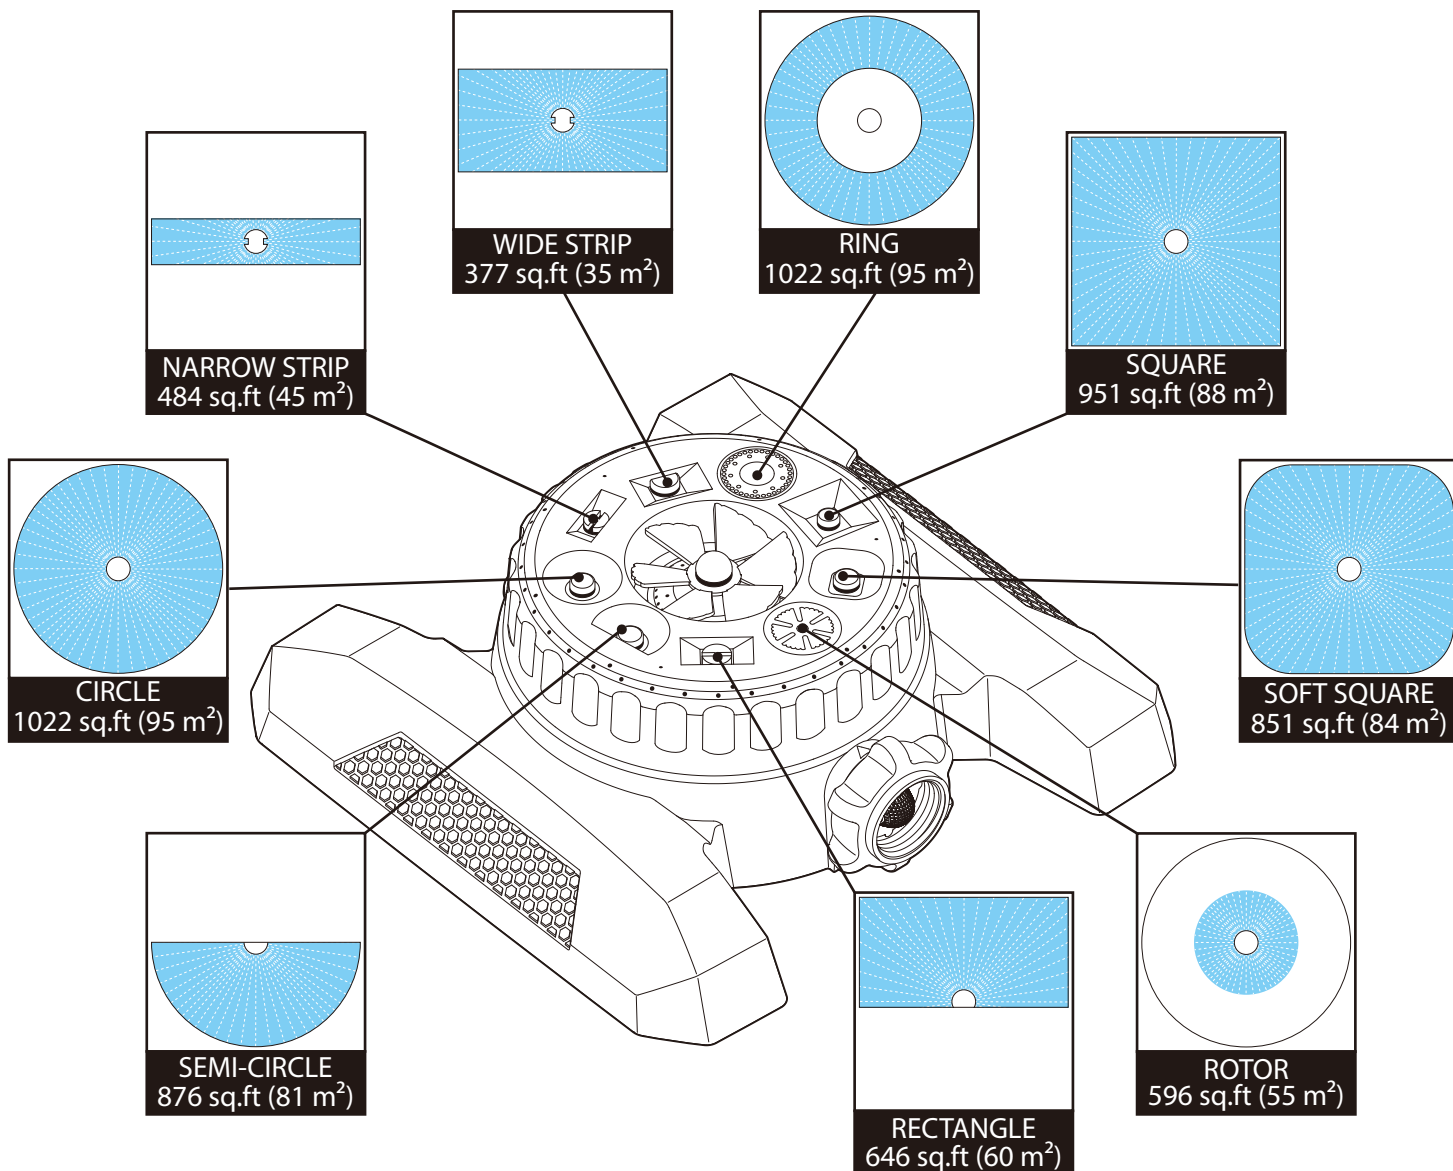

### Connect the Hose

Use the Quick Connect System to easily connect and disconnect the sprinkler from the hose. Connect the Product Adapter to the base of the sprinkler. Attach the lockable Quick Connect to the end of the hose, then simply snap in the hose to the sprinkler to begin using.

Use the additional included Product Adapter for your nozzles, wands, or other watering tools to switch between tools, even with the water running.

**NOTE:** If you are not using the Quick Connect System, simply connect the sprinkler directly to the hose.

### ⚠ CAUTION ⚠

- For outdoor use with cold water only
- Do not spray near electrical connections
- When not in use, rinse the tool with water to remove most of the dirt, dry your tool, and store indoors

**⚠ WARNING:** This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

The Quick Connect Adapter (2 pcs) and Hose Connector with Water Stop (1 pc) simplify your watering experience. Simply attach the connector at the end of your hose. Then, connect the adapters to your watering tools. Interchange various tools in a snap without turning off the water as the adapter will stop the water flow. No more kinking or hose twisting as the adapter allows the hose to swivel 360 degrees.
