protect against damage

Innovative trigger lock button with two distinct
lock settings allows for continuous water flow.
Quick lock and release.

To Lock: Push button up and in as you
squeeze the trigger

To Release: Squeeze the trigger and
push button down

Work like a PRO. From cleaning the car to scrubbing the patio, the PRO Metal Front-Trigger 6-Pattern Turbo Nozzle helps you tackle your most challenging cleaning chores. Forget about using expensive pressure washers when you have a compact handheld pressure sprayer which cleans with a mini turbo twisting pattern (take a video on your smartphone to view the twisting effect!). The Turbo Nozzle cleans surfaces by using a compact stream of water which twists as it cleans. The circular twisting motion makes dirt a thing of the past.

With six spray patterns to choose from, you can clean your car with the Turbo spray then turn to water your garden with the Shower setting. The front trigger and extra-large handle make it comfortable to hold. Give your hand a break and keep the water flowing by moving the innovative trigger lock button inwards and upwards to lock in place for continuous water flow. The two lock settings let you set the right water flow for your watering task. With an aluminum core construction, the nozzle resists damage and rust and stands up to abuse for years of reliable and dependable performance.

Turbo: Great for large surface cleaning such as gutters, driveways, windows, decks, and pavement or for deep water penetration of hard soil.

Jet: Creates precise narrow strips and reaches a far distance. Useful for cleaning soffits, porches, balconies, lawnmowers, snowblowers, quadrunners, etc...

Mist: Great for watering fine delicate plants like orchids or cooling down an area.

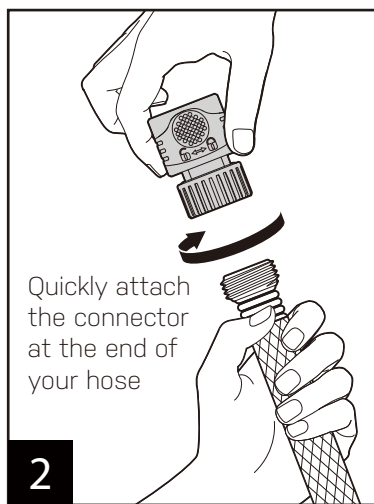

Soaker: Water an area you want to flood slowly with water, quick fill up the bucket, or water the root level of plants.

Flat: Creates a wide spray of flat water. Useful to disperse and sweep leaves and dirt.

Shower: Provides a stable constant flow of water over surfaces. Use for flowers, hedges, or rinsing surfaces.

**Make cleaning and gardening easy with a twisting spray
to clean surfaces in less time**

Secure twist-and-lock mechanism prevents accidental disconnection

⚠ CAUTION ⚠

- For outdoor use with cold water only
- Do not spray near electrical connections
- When not in use, rinse the tool with water to remove most of the dirt, dry your tool, and store indoors

⚠ WARNING: This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

The Quick Connect Adapter (2 pcs) and Hose Connector with Water Stop (1 pc) simplify your watering experience. Simply attach the connector at the end of your hose. Then, connect the adapters to your watering tools. Interchange various tools in a snap without turning off the water as the adapter will stop the water flow. No more kinking or hose twisting as the adapter allows the hose to swivel 360 degrees.
