

5 Pattern Rotary Sprinkler Head

Spray Coverage and Distance Adjustment

Adjust the range tabs and angle cap to change the spray coverage (from 5° up to 360°) and spraying angle to water just where you need without wasting water.

Spray Pattern Adjustments

Depending on your watering needs, you can manually select from the various pattern settings:

- FLAT - The flat pattern will provide a flat wave of water.
- FAN - The fan pattern disperses water in a wide fan shape.
- MIST - This pattern is useful to cool down a small area.
- LARGE - This pattern covers the maximum area.
- MULTI - This is a combination of the Flat, Fan and Large patterns.

Level Adjustment Indicator

Move the angle cap to control the distance of your watering area. The higher level will create a higher arc for greater water coverage. The lower level will reduce the watering area. Convenient indicators help you remember your settings for next time.

⚠ CAUTION ⚠

- For outdoor use with cold water only
- Do not spray near electrical connections
- When not in use, rinse the tool with water to remove most of the dirt, dry your tool, and store indoors

HIGHER LEVEL (1-3):
Adjust the spray upwards for maximum distance.

LEVEL (0)
Adjust the spray in between a dispersed and concentrated watering area.

LOWER LEVEL (3-1)
Adjust the spray downwards to reduce the watering area.

40 PSI	Large	Multi	Flat	Fan
Radius of Spray	39 ft (12 m)	37 ft (11.5 m)	29 ft (9 m)	27 ft (8.5 m)
Coverage Area up to	4860 sq ft (452 m ²)	4470 sq ft (415 m ²)	2730 sq ft (250 m ²)	2440 sq ft (226 m ²)
