

Anvil Pruning Shears

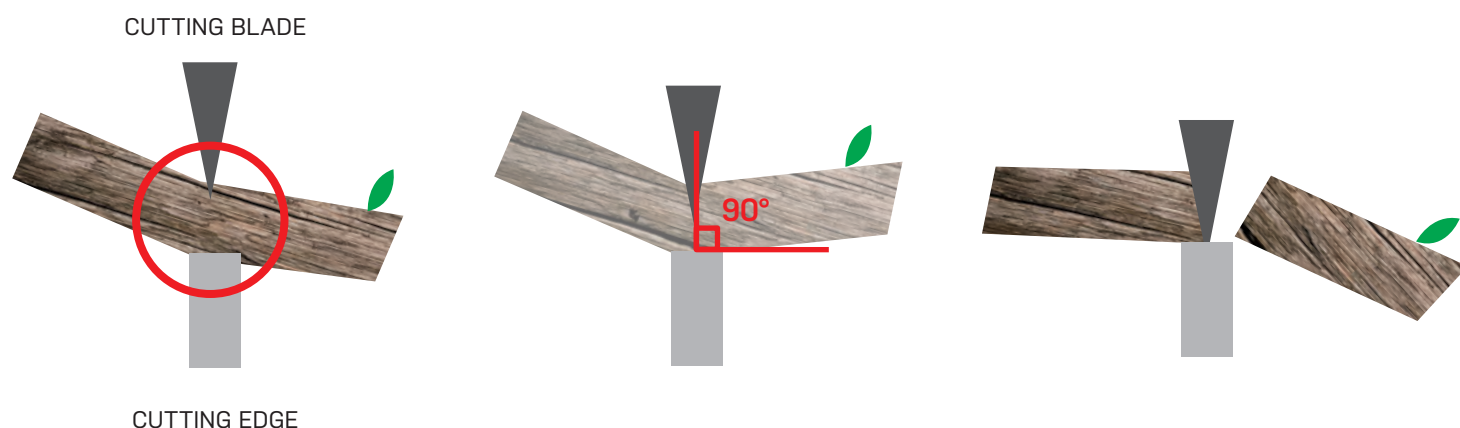

Cut through branches and stems with ease with Eden's Anvil Pruning Shears. Our pruning shears are made of high-quality SK5 hardened carbon steel to resist rust and corrosion. The Teflon-coated blades ensure smooth cutting and long-lasting usage for years to come. The lower blade is coated with a chromium plating to keep the blade edge sharper longer.

Our lightweight, ergonomic non-slip handles are comfortable and protect your hand for better control and reduce pressure on your wrist. Single-handedly slide the safety lock by pushing the locking lever with your thumb. Reduce hand strain with the built-in spring mechanism to provide a smooth opening and closing operation for each pruning activity. The Eden Anvil Pruning Shears are great for pruning dead branches, weeds, brush, or thick branches up to 7/8 inch in size.

Features & Benefits:

- SK5 high-quality carbon steel
- Rust and corrosion resistance
- 7/8 inch (2 cm) cutting diameter for stems and light branches
- Chromium-plated blades for longer sharpness
- Great for cutting dry, dead wood, brush, or deadheading tough perennials
- Ergonomic shock-absorbing non-slip handles
- Thumb safety lock to prevent accidental usage
- Built-in spring mechanism for a smooth and effortless cut
- Backed by a 2-year limited warranty

Anvil action: for best performance, use a 90° cut position

cutting diameter
