Work like a PRO. From cleaning the car to scrubbing the patio, the PRO Metal Front-Trigger 4-Pattern Turbo Nozzle helps you tackle your most challenging cleaning chores.

With four spray patterns to choose from, you can clean your car with the Turbo spray then twist the dial ring to water your garden with the cone setting. The front trigger and extra-large handle make it comfortable to hold. Give your hand a break with the innovative trigger lock button to lock the handle in place for continuous water flow. The two lock settings let you effortlessly set the right water flow for your watering task. The aluminum core resists damage and rust for years of reliable and dependable performance.

Turbo: Great for large surface cleaning such as gutters, driveways, windows, decks, and deep water penetration of hard soil.

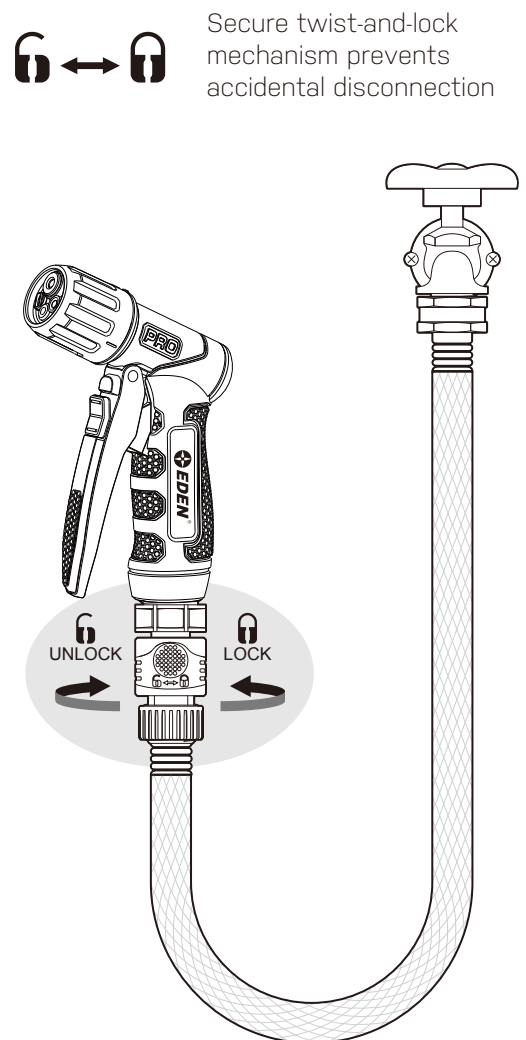

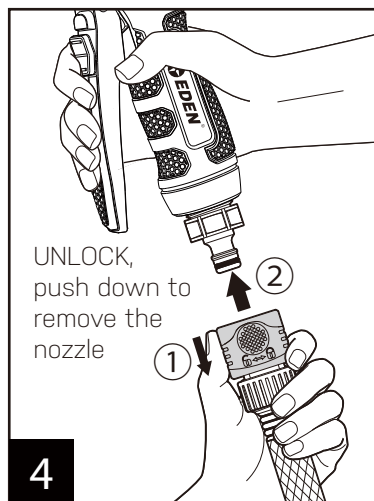

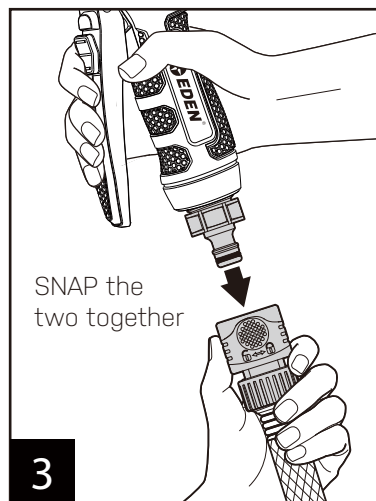

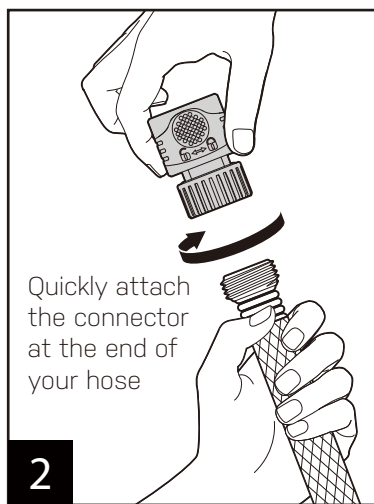

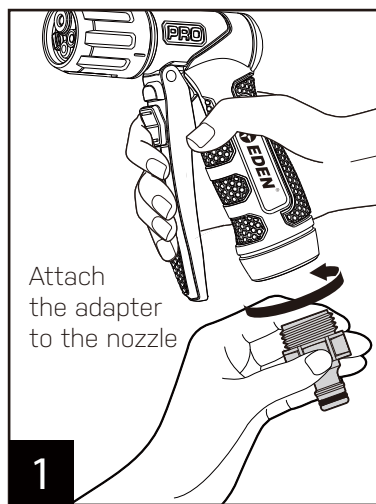

Jet: Creates precise narrow strips and reaches long distances. Useful for cleaning soffits, porches, balconies, lawnmowers, snowblowers, quadrunners, etc...

Flat: Creates a wide spray of flat water. Useful to disperse and sweep leaves and dirt.

Cone: Gives you a circle of spray so that you can water multiple plants all at once.

**Make cleaning dirty surfaces quick and painless
with the Turbo spray**

⚠ CAUTION ⚠

- For outdoor use with cold water only
- Do not spray near electrical connections
- When not in use, rinse the tool with water to remove most of the dirt, dry your tool, and store indoors

⚠ WARNING: This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

The Quick Connect Adapter (2 pcs) and Hose Connector with Water Stop (1 pc) simplify your watering experience. Simply attach the connector at the end of your hose. Then, connect the adapters to your watering tools. Interchange various tools in a snap without turning off the water as the adapter will stop the water flow. No more kinking or hose twisting as the adapter allows the hose to swivel 360 degrees.
