

Garden Hose Washer Kit

Our kit comes complete with two varieties of washers. These washers offer a tight, leak-free connection for your garden hoses or hose accessories. The stainless-steel filter washers also help to filter out sediment, dirt, and grime.

**12 Rubber Hose Washers
with Stainless Steel Mesh Screen**

Rubber Hose Washer with Stainless Steel Mesh Screen :

Keep sediment, dirt, and grime from building up in your hose or watering tools. The fine mesh keeps particles out to prevent clogging as you water.

These rubber washers can help prevent water leakage by providing a secure seal. They are designed durable rubber that will endure the rigors of everyday use. These washers feature a stainless-steel mesh screen, which is molded within the rubber washer, providing a strong and lasting seal.

The Rubber Washer with Stainless Steel Mesh Screen is made of a uniform 30 mesh screen and has four small outer tabs to secure the washer in place firmly and properly.

Rubber Hose Washer:

Stop leaks with a new washer. Create a tight, leak-free connection for your watering tools.

Stop wasting water and keep your watering tools at peak performance by adding or replacing your old washer. The durable Rubber Hose Washer is resistant to corrosion, cracking, and wear.

It's easy to replace your old and leaking washers. The Rubber Hose Washers fit all standard watering accessories and garden hoses. They create a secure, leak-free seal allowing for efficient water use and promoting water conservation.

24 Rubber Hose Washers

Features & Benefits

- **Secure seal:** Offers a secure watertight seal with four small tabs that help to secure it in place and prevent it from falling out of your watering accessory fittings.
- **Universal fitting:** Fits all standard female garden accessory threads for use on multiple watering accessories such as hose fittings, spray nozzles, hose splitters, and other similar garden connectors.
- **Long Lasting:** Eden washers are designed to last without damage compared to similar plastic washers that tend to break more easily over time.
- **Easy tear-off packaging:** Washers are attached in an easy to tear-off panel so you can simply remove each washer / stainless steel mesh screen filter as you need it while keeping the remainder organized for easy storage. The panel includes a mounting feature to easily hang in your workshop or garage.
- **36 pieces:** 12 Rubber Hose Washers with Stainless Steel Mesh Screen and 24 Rubber Hose Washers to use and replace damaged washers for a very long time
- **Durable:** Stainless-Steel mesh screen prevents sediment from clogging hoses and accessories while resisting corrosion, cracking and wear.
- **Quality Materials:** These hose washers are made of high-quality thermoplastic vulcanized rubber that is flexible for a watertight seal, but strong enough to resist tear and withstand weather and abrasion.
- **Easy installation:** Simply place the washer between the faucet and garden hose or between your watering accessories and hose. Both washers provide leak-free connections and the filter washer helps prevent clogging.

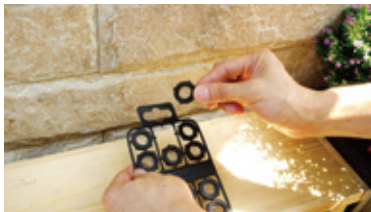

1. Remove old or leaky washer from your watering tools or accessories:

- Use a flat screwdriver to remove the old or leaky filter or washer.

2. Install new washer:

- Push a single filter or washer out of the panel by pressing between the tabs, the washer will easily tear off.

- Insert the filter or washer into the female end of your watering tools and accessories.

WARNING:

Intended for outdoor use only. This is not a toy. Severe electrical shock could result if water is sprayed into outlets or sources of electrical current. Do not use water more than 115°F (46°C). Do not use when the ambient air temperature is less than 40°F (4.5°C). When not in use, drain and store indoors away from freezing temperatures.

WARNING: This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.
