

Premium Quick Connect with Shut off Valve Set (9 pcs)

Swap watering tools quickly without frustration.

Every yard has multiple watering needs. This requires switching out various watering tools from nozzles and wands to oscillating sprinklers. This seemingly simple task often becomes a source of frustration and wasted time. Trudging back to the faucet to turn off the water is a chore, and the threads on a hose can wear out and be difficult to align properly with your watering tools.

The Premium Quick Connect with Shut Off Valve Set makes switching tools easy. Simply attach the hose to the faucet as usual, then attach the Quick Connect with Shut Off Valve to the other end of the hose. Attach the Product Adapters to any watering accessory and quickly snap on to the connector. The lock feature ensures a secure fit and the flow-control valve gives you the ability to shut off the water right where you stand to easily change tools while also controlling the water pressure. With this tool you can stop making trips back-and-forth to the faucet.

Features & Benefits

- Easy-to-adjust flow control switch allows you to easily shut off the water and swap tools without having to return to the faucet – saving time and water
- Rubberized grip provides comfort in handling even in wet conditions
- Disconnect your watering tools without getting wet
- Easily switch out watering tools without traveling back to the faucet
- Secure twist-and-lock feature prevents unexpected disconnection
- Works with standard garden nozzles.
- Fits all standard garden hoses

Step 1

Attach Premium Quick Connect with Shut off Valve to the hose.

Step 2

Insert the Product Adapters into various watering tools such as nozzles, wands, oscillators, sprinklers, and more.

Step 3

Easily snap the watering tools on and off whenever you need to switch tools even with the water running.

Step 4

Secure the twist-and-lock feature to prevent accidental disconnection.

Step 5

Adjust the water flow according to your needs.

WARNING:

Intended for outdoor use only. This is not a toy. Severe electrical shock could result if water is sprayed into outlets or sources of electrical current. Do not use water more than 115°F (46°C). Do not use when the ambient air temperature is less than 40°F (4.5°C). When not in use, drain and store indoors away from freezing temperatures.

⚠ WARNING: This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

The Premium Quick Connect with Shut Off Valve Set will simplify your watering experience. Simply attach the connector at the end of your hose. Then connect the adapters to your watering tools. Interchange various tools with a snap without turning off the water as the shut off valve of the connector will stop the water flow. No more kinking or hose twisting as the connector allows you to swivel your hose 360 degrees.
