

# METAL 9-PATTERN TURRET SPRINKLER

## THE VERSATILE TURRET SPRINKLER FOR ALL YOUR LANDSCAPE NEEDS

### Perfect for watering lawns and gardens

Agricultural

Horticultural

Vegetables

Fruits

Lawn

Garden

Reach irregularly sized and shaped areas with the versatile and durable Eden Metal 9-Pattern Turret Sprinkler.

Choose from 9 different watering patterns to reach any shaped area from the lawn and corner gardens to vegetable gardens, flower beds, or thin strips of grass by the curb. Customize your watering area to water right where you need it.

With just a twist, select a watering pattern that fits your unique watering area. Choose from rectangle, wide strip, narrow strip, semi-circle, square, soft square, circle, ring, or rotor to cover the right-sized area.

The durable, heavy-duty aluminum base with rotary dial is built to last season after season. The convenient hook makes storage simple. Great for small- or medium-sized areas up to 1,022 sq. ft., this sprinkler will keep your lawn and gardens healthy and growing.

The patented, automated pop-up rotor creates an even watering effect built for any terrain. Once the rotor pattern is selected, it will automatically pop up and provide an even watering pattern. When not selected, it will lower itself into a protective casing for safe storage.

### Connect the Hose

Use the Quick Connect System to easily connect and disconnect the sprinkler from the hose. Connect the Product Adapter to the base of the sprinkler. Attach the lockable Quick Connect to the end of the hose, then simply snap in the hose to the sprinkler to begin using.

Use the additional included Product Adapter for your nozzles, wands, or other watering tools to switch between tools, even with the water running.

**NOTE:** If you are not using the Quick Connect System, simply connect the sprinkler directly to the hose.

## WARNING:

Intended for outdoor agricultural or horticultural use only. This is not a toy. Severe electrical shock could result if water is sprayed into outlets or sources of electrical current. Do not use water more than 115°F (46°C). Do not use when the ambient air temperature is less than 40°F (4.5°C). When not in use, drain and store indoors away from freezing temperatures.

**⚠ WARNING:** This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

The Quick Connect Adapter (2 pcs) and Hose Connector with Water Stop (1 pc) simplify your watering experience. Simply attach the connector at the end of your hose. Then, connect the adapters to your watering tools. Interchange various tools in a snap without turning off the water as the adapter will stop the water flow. No more kinking or hose twisting as the adapter allows the hose to swivel 360 degrees.

Secure twist-and-lock  
mechanism prevents  
accidental disconnection
