Assembly

Simply attach the sprinkler head to the top of the spike. Hold the bottom of the sprinkler head and spike to tighten by hand (do not overtighten).

Connect the Hose

Use the Quick Connect System to easily connect and disconnect the sprinkler from the hose. Connect the Product Adapter to the spike. Attach the lockable Quick Connect to the end of the hose, then simply snap in the hose to the sprinkler to begin using.

Use the additional included Product Adapter for your nozzles, wands, or other watering tools to switch between tools, even with the water running.

NOTE: If you are not using the Quick Connect System, simply connect the sprinkler directly to the hose.

To extend, simply remove the back end-cap and attach another hose and connect another sprinkler.

Adjustable Collars

Adjust the collars to set your desired circle coverage (5-360°)

Adjustable from Full to Partial Circle

Flip lever up for full circle (0-360°)

Adjustable Deflector

Adjust deflector shield for spray distance control 14.7 ft.- 45 ft. (4.5-14m)

The Quick Connect Adapter (2 pcs) and Hose Connector with Water Stop (1 pc) simplify your watering experience. Simply attach the connector at the end of your hose. Then, connect the adapters to your watering tools. Interchange various tools in a snap without turning off the water as the adapter will stop the water flow. No more kinking or hose twisting as the adapter allows the hose to swivel 360 degrees.
