

BRASS IMPULSE SPRINKLER WITH TELESCOPING TRIPOD

Tripod length
63.7"
(162cm)

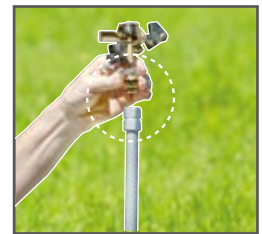

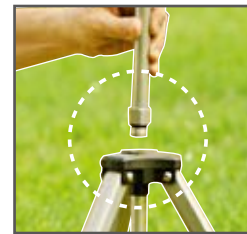

Step 1

Place the tripod in the area where you want to water. Open the latches to release the legs. Push down on the tripod legs until the legs are well seated on the ground.

Step 2

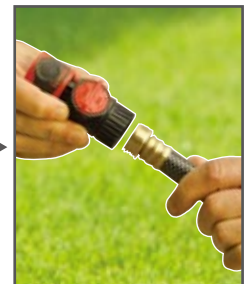

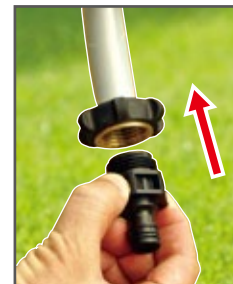

Attach the Extension Tube to the tripod, then connect the sprinkler head to the top of the Tripod or Extension Tube (**do not overtighten**).

Step 3

Using the Quick Connect with Shut Off Valve allows you to easily shut off the water and swap tools without having to return to the faucet – saving time and water. Attach the lockable Quick Connect to the end of the hose, then snap the hose to the tripod to begin using.

Note: If you are not using the Quick Connect System, connect the sprinkler directly to the hose.

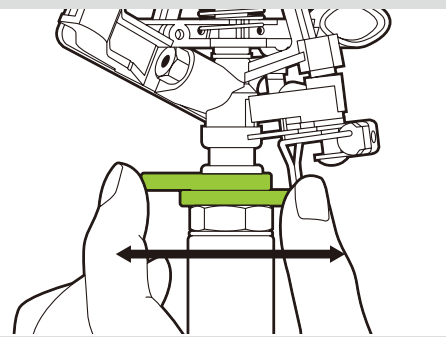

Quick Connect Starter Set with Shut Off Valve fits standard garden hoses and watering tools

Filter prevents sediments and dirt from getting into sprinkler

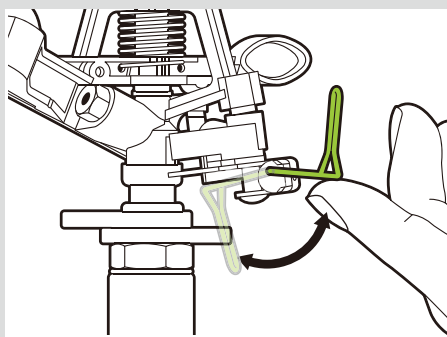

43.7"
(111cm)

18.7"
(47.5cm)

The Premium Quick Connect with Shut Off Valve Set will simplify your watering experience. Attach the connector at the end of your hose. Then connect the adapters to your watering tools. Interchange various tools with a snap without turning off the water, as the shut-off valve of the connector will stop the water flow. No more kinking or hose twisting, as the connector allows you to swivel your hose 360 degrees.
